COMPLIANCE COMPASS
LEADING YOU TO **SUCCESS**

BUSINESS SYSTEMS DATA SHEET

Utilising the power of Sharepoint from the Microsoft Office Suite, We will come to your business and ensure that all of your documents are in a safe and secure place ready for the next audit.

BUSINESS SYSTEMS

Sharepoint is the Office 365 one stop shop when it comes to the Microsoft Suite, all your businesses Word, Powerpoint, and Excel Documents are fed into it.

With the right person behind it you will be able to have a fully integrated system that responds to CoPilot to help you find documents with ease, which means no more searching for documents.

BENEFITS OF OUTSOURCING:

Easy to share documents

More time to focus on your business

Financial Compliance

WHY TRUST US?

Managing your documents just got a lot easier, for years microsoft have been engineering a software to help keep all of your documents in one easily searchable place. This is where Sharepoint comes in.

All your microsoft documents in one easy place, not to mention the endless possibility of uploading your seperate files, no WeTransfer, no Dropbox, you will be able to send downloadable links to your team to transfer documents within your company.
