

GAP ANALYSIS DATA SHEET

A gap analysis is a detailed assessment of your current business processes, systems and documentation against the requirements of a specific standard or accreditation. It identifies where you already meet the criteria and highlights the areas that need improvement before certification or an audit.

GAP ANALYSIS

Carrying out a gap analysis helps you understand exactly what needs to be done before investing time and resources into an accreditation or management system.

It reduces the risk of unexpected non-conformities, provides a clear action plan and ensures you're fully prepared for a successful audit.

BENEFITS OF OUTSOURCING:

Practical
recommendations

Independent
professional reviews

Be audit
ready

WHY TRUST US?

At AA Compliance Compass, we provide practical, honest and tailored gap analyses designed around your business.

With years of experience supporting SMEs across a range of industries, we identify opportunities for improvement and create a clear roadmap to compliance, giving you the confidence to move forward efficiently and successfully.
